Road Signs Recognition Check

Student name: _____ Date: _____ Class/group: _____

Directions: Identify each sign, then write the safest driver action. Use the shape and color even when the words are small.

1. Sign name: _____
Driver action:
_____

2. Sign name: _____
Driver action:
_____

3. Sign name: _____
Driver action:
_____

4. Sign name: _____
Driver action:
_____

5. Sign name: _____
Driver action:
_____

6. Sign name: _____
Driver action:
_____

7. Sign name: _____
Driver action:
_____

8. Sign name: _____
Driver action:
_____

Quick reflection

Which sign was slowest?	
Which clue helped most: shape, color, words, or symbol?	
What will you do before the next quiz?	

Driver-Action Decision Round

Circle one answer. The goal is not only to name a sign; it is to choose the safest action.

1	A red octagon is ahead. What should you do? A. Slow only if traffic is present B. Stop completely, then yield C. Continue if the road looks clear
2	A triangular red-and-white sign is ahead. What is the best response? A. Give right of way when needed B. Stop for exactly five seconds C. Speed up to merge first
3	A lane ends warning sign appears on your side. What should you do? A. Merge early when safe B. Stop in the lane C. Pass on the shoulder
4	A pedestrian crossing sign is ahead. What should you do? A. Watch the crosswalk and prepare to yield B. Honk and keep speed C. Use the opposing lane
5	A Slippery When Wet sign appears during rain. What is safest? A. Brake hard to test traction B. Lower speed and make smooth inputs C. Use cruise control
6	A round railroad warning sign appears. What should you expect? A. Tracks and crossing controls B. A bus-only lane C. A tunnel
7	An orange diamond sign appears. What does the color usually signal? A. Permanent service information B. Work zone or temporary traffic control C. A speed increase
8	A red circle and slash covers a turn arrow. What does it mean? A. The movement is recommended B. The movement is prohibited C. The route is scenic

Transfer check

Write one sentence: A sign is useful only when I can connect the picture to _____.

Recognition check	____ / 8	Decision round	____ / 8	Next review date	_____

Answer Key and 10-Minute Teaching Plan

Use the explanations to reteach the action, not only the sign name. Verify state-specific wording in the official driver handbook.

Recognition check

1. Stop Come to a complete stop, yield, then proceed when safe.	2. Yield Slow and give right of way when another road user has priority.
3. Do Not Enter Do not enter the roadway, ramp, or restricted direction.	4. Speed Limit Do not exceed the posted legal maximum under normal conditions.
5. Merge Check mirrors, adjust speed and space, and merge smoothly when safe.	6. School Crossing Slow, scan for children, and obey posted school-zone controls.
7. Railroad Crossing Ahead Prepare for tracks and obey lights, gates, or a crossbuck.	8. Slippery When Wet Reduce speed and avoid sudden steering or braking.

Decision round

1. B - Stop completely, then yield.	2. A - Give right of way when needed.
3. A - Merge early when safe.	4. A - Watch the crosswalk and prepare to yield.
5. B - Lower speed and make smooth inputs.	6. A - Expect tracks and crossing controls.
7. B - Orange signals a work zone or temporary traffic control.	8. B - The movement is prohibited.

10-minute teaching plan

2 min	Silent scan	Students name each sign without reading the answer choices.
3 min	Action language	Ask for verbs: stop, yield, merge, slow, watch, or do not enter.
3 min	Decision round	Students circle answers, then explain one choice to a partner.
2 min	Targeted next step	Circle no more than three weak signs and open the matching picture quiz.

Source and use note

The prompts and simplified illustrations are original TestDayTools study material. Use the FHWA Manual on Uniform Traffic Control Devices and the learner's official state driver handbook for final wording and state-specific rules. Teachers, libraries, driving schools, families, and other noncommercial educators may print and share this unmodified PDF when the TestDayTools credit and page URL remain visible. No resale, rebranding, or adaptation.

Material check 2026-10-28: the eight pictures reuse the web reference's SVG artwork, including the five-sided school sign. Picture/label consistency and the printed answer mapping were checked by TestDayTools with AI-assisted source comparison, not a driving-instructor assessment.
